Purpose of SWIFT-FIA

SWIFT Fidelity Integrity Assessment (SWIFT-FIA) is a self-assessment used by School Leadership Teams to examine the current status of schoolwide practices that have been demonstrated through research to provide a basis for successfully including all students who live in the school community. School-based teams can administer SWIFT-FIA through a structured conversation accompanied by a review of evidence to substantiate the ratings assigned. By assessing the extent of current implementation of SWIFT Core Features during the school year, teams can monitor their progress over time.

Conducting SWIFT-FIA

Who completes SWIFT-FIA?

A trained School Leadership Team completes SWIFT-FIA with support from a SWIFT Facilitator who facilitates discussions and helps the team to assign scores. This Facilitator clearly understands the SWIFT framework and can articulate what it looks like when schools implement each SWIFT Core Feature. A SWIFT-FIA Facilitator should be trained in the content of the Core Features, group facilitation, and criteria for scoring SWIFT-FIA. A school team should be trained in using SWIFT-FIA to discuss the school's performance and progress in SWIFT implementation.

When and how often should SWIFT-FIA be completed?

SWIFT-FIA results should be used on a regular basis to monitor implementation. A School Leadership Team generally completes SWIFT-FIA approximately every 3 months (or Fall, Winter, and Spring of the school year) to discuss progress and barriers to progress, and how changes can be implemented. At the very least, school teams should complete SWIFT-FIA twice a school year.

How is SWIFT-FIA completed?

A School Leadership Team reviews each descriptive statement on SWIFT-FIA and examines its current status (e.g., We are: Laying the Foundation, Installing, Implementing, or Sustaining and Scaling Up). Team members should schedule 60-90 minutes for the first administration and at least 30-45 minutes for subsequent progress monitoring. With subsequent administrations, the team will be able to become more efficient and focus on changes that have resulted from implementation efforts.

For SWIFT Partner Schools, the information collected on SWIFT-FIA can be added to Data Snapshots, and then, in combination with student outcome and school climate data, be used for identifying priorities for change. The Priority and Practice Planning form is then used to guide action planning to successfully include ALL learners.

These 22 SWIFT-FIA items are associated with SWIFT Domains and Core Features, and are aligned with SWIFT Fidelity of Implementation Tool (SWIFT-FIT).

Scoring and Summarizing Results

The current status of each item in SWIFT-FIA is assessed on a 0-3 scale.

0 = Laying the Foundation: Our school does not have everything in place to meet the stated criteria. Our school may have discussed our current status and the need for implementation, including discussions to identify existing strengths and barriers, and the degree to which the item description meets the needs of our school. However, no actions are planned or in progress at this time.

1 = Installing: Our school has started working on improvement of the SWIFT-FIA item with a clear plan. Our School Leadership Team has defined clear plans to develop the feature and personnel are assigned responsibility for carrying out the plans.

2 = Implementing: Our school began implementation and is now improving. All implementation components are in place and the transformation efforts have started to make systemic changes.

3 = Sustaining Schoolwide Implementation: Our school has all features described in the item, and all components to make the implementation a success are fully integrated and functioning. Our school maintains and improves skills through the system. Overall effectiveness is monitored and components for ongoing implementation are revised to improve contextual fit.

SWIFT-FIA results are summarized into 1) a total score, 2) individual SWIFT domain scores, 3) individual SWIFT core feature scores, and 4) individual item scores. Scores are determined by calculating the percentage of points for a SWIFT-FIA item. See the tables on page 32 for a sample score summary sheet and an example of calculating scores.

The results can be used for

- Identifying and prioritizing practices for transformation
- Internal decision making about actions to install and implement those practices
- Follow up on effects of action plans on practices

The summary of results provides schools with a picture of their current implementation of SWIFT Core Features.

How do we know?

- Grade-level and instructional support team meeting minutes
 - Do special educators regularly and formally meet with grade level educators to discuss progress of students at risk and plan tiered interventions?
- Tier I reading and math curricula
 - Does our school have research-based core Tier I curriculum for reading and math? And do we have fidelity measures available to ensure that instructions are delivered as intended?
- Universal screening and progress monitoring
 - Do universal screenings to identify students at risk of academic failure occur at least 3 times a year, and are more frequent assessments available to monitor their progress on both reading and math?
- Tier II & III intervention guidelines, including instructional fidelity records and rules for student access to and exit from interventions
 - Does our school have research-based Tier II and III interventions, and are those interventions delivered with fidelity as intended?
 - Does our school have clear access and exit rules to identify when students need to participate in advanced tier interventions?

- Review sample Tier II & Tier III behavior support plans
 - Are our interventions designed to incorporate family and/or student perspectives and results of all assessments (e.g., FBA, academic tests, mental health assessments, etc.)?
 - Does our Tier III behavior plan include prevention strategies, strategies for increasing desired behavior, strategies for minimizing rewards for problem behavior, and exit criteria?
- Review sample progress monitoring data for students receiving Tier II & III supports
 - Are our interventions modified as necessary based on outcomes, fidelities, and inputs from stakeholders?

Inclusive Behavior Instruction - Data-based Decision Making (Behavior)	4.3 Our school identifies and prioritizes instructional interventions based on analyzing multiple sources of behavior data. <i>Main idea: A data-based decision-making process that uses multiple data sources to plan, monitor, and implement behavior supports at all tier levels will enable the school to effectively select, design, and modify behavioral interventions.</i>

Fully Integrated Organizational Structure - Non-categorical Service Delivery	5.2 Our school embraces non-categorical service delivery to support diverse needs of students. <i>Main idea: When faculty and staff are expected to support all students, regardless of their title or particular student need, instruction and supports are respectful, and can be flexible and innovative, meeting the diverse needs of students.</i>

Strong and Positive School Culture - Full Access for All Students	<p>6.1 All students, including those with IEPs, in our school have equal access to the general education curriculum and extracurricular learning activities with appropriate supports.</p> <p>Main idea: <i>An equitable education means equal opportunities for all students to participate in the core instruction and extracurricular activities. 6.2 All school personnel (i.e., instructional and other personnel) share responsibility and employ culturally responsive practices to educate all students in our school.

Main idea: Culture is central to learning. Learning environments and activities that reflect students' social, cultural, and linguistic experiences maximizes learning opportunities and makes instruction relevant for students.

Trusting Family Partnerships - Family Opportunities to Participate	<p>7.1 Our school provides families with opportunities/resources to participate in the decision-making of their child's education. LEA (District) Policy Framework - LEA (District) Process for RBP	10.2 Our LEA (District) uses school-building information to support, and ensure training regarding research and/or research-based practices. <i>Main idea: By using multiple data sources, including input from school-based staff, to select research-based practices and provide professional learning opportunities to school-based educators, the practices and training will result in meaningful change in instruction for the benefit of all students.</i>

	Our district is exploring the benefit of a policy and process to select research-based instructional practices. Our district does not have or does not fully utilize a formal procedure to select research-based practices or our school is not aware of or involved in the process.	Our district is developing a policy and process for selecting research-based practices. The process involves school administrators to solicit input and feedback.	Our district has a clear policy and process for selecting research-based practices and the selection process involves school administrators.	Our district has a clear policy and process for selecting research-based practices and the selection process involves school administrators. This policy and process are monitored and reviewed for continuous improvement by school and district administrators.
